

Bicycle Routes to Bike Shops in Wenatchee

If we are to ride our bicycles in Wenatchee, sooner or later, we will need to find a bicycle shop for parts and service. All of Wenatchee's bike shops are easy to reach by bicycle. If it's just parts and/or advice needed, a bicycle can be used for a trip in both directions from home or work place. If dropping off a bicycle for repairs, all four shops have convenient Link Bus access for the way home. Any of these alternatives will work best if one uses the best bicycle-friendly ways to access the shops. I am lucky to live less than a mile from my favorite shop, so when I drop off my bike for repairs or yearly tuneups, I just walk home.
